## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,6,8-11,13,14,16,17 are rejected under 35 U.S.C. 102(b) as being anticipated by Longworth et al (Cryopump regeneration studies). The published document by Longworth submitted by applicant discloses cryopumps comprising a cryopump, a 500W band electric heater wrapped around the cryopump housing and controlled by a thermostat set at 65 degrees (c) and further comprising a thermocouple and silicon diode temperature sensor (see figure and paragraph section II).

### ***Allowable Subject Matter***

Claims 4,5,7,12 & 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
